Job Description:

- Coordination of scheduling pickups & deliveries.
- Efficiently and cost effectively routing shipments from city to city to make service and profit.
- When necessary, stopping a shipment while in transit and re-routing it to meet customers needs.
- Entering shipments into our Transportation Management System.
- Ensuring all customer instructions entered into the shipment are executed and all issues noted in the system and communicated to the account teams.
- Ensuring the necessary milestones have been added to a shipment and the milestones are in the correct order.
- Work with other stations to ensure that the routing and instructions are followed to make service
- Negotiating rates with vendors and requesting spot quotes.
- Accruing vendor costs in the system and when the invoice doesn't match the accrual, work with the vendor to resolve the variance.
- Support account teams with routing and local pick up and/or delivery recommendations.

Knowledge/Skills Required:

- Excellent Customer Service Skills.
- 5+ years experience in Freight Forwarding Operations.
- Experience with trucking companies and airlines to move shipments.
- Medium to advanced Microsoft Office programs (Excel, Outlook, Word)
